

ABOUT:

Gemma was delighted to join Wealth Design and fulfil a career ambition of becoming an independent financial adviser. She is grateful to Steve and David for giving her the opportunity as a mother of four young children, as she thought most employers would run a mile from a woman with four children under four. She was worried that it would take a long time to return to her work after the birth of her youngest children. She feels very lucky that Wealth Design allows her to work around her family which works really well. Gemma states "it's so refreshing to work for a company that support flexible working and encourage women in the workplace."

She has always loved working as a financial adviser. It's more than a job to her. She enjoys her role even more since joining such a customer-driven company. She feels proud to work for Wealth Design, so much so that she has had no hesitation introducing her friends and family as clients.
